

**All manufacturers guarantees are void if washing and care instructions are not followed.**

### **Pre-Wash**

Wash garments in Cold water to assure color fastness. Check for bleeding. Hang Garments on plastic hangers immediately. Do not allow to sit in washer for more than an hour.

Fading or cracking may occur if uniforms are left in a pile, a laundry/travel bag and/or washer.

### **Washing**

Pre-treat stains with pre-wash, stain remover or protein release for no more than 30 minutes.

Uniforms need to be inspected for normal wear and tear so repairs can be made prior to washing to prevent further damage.

Never wash uniform with other apparel items.

Never wash jersey tops together as they are different colors.

Never wash pants and tops together as they are different colors.

Wash uniforms in COLD water as soon as possible after use, before stains are allowed to set.

The rinse cycle should be the same temperature as the wash cycle. Do not allow uniforms to sit wet alone or together.

A mild detergent should be used.

Do not overload machine with detergent. Bubbles limit the mechanical action.

**DO NOT USE CHLORINE BLEACH.**

### **Drying**

Hang garments on plastic hangers. If dryer is used, tumble dry on air only and remove immediately.

Hang or fold to prevent wrinkles once dry.

Excessive heat or drying time may cause shrinkage and damage to the numbers and decoration.

Do not use fabric softener sheets for the same reason mentioned above.

### **Storing**

Store in a cool dry area off the floor.

Protect from direct sunlight or florescent light.
